

The Glovesize.com™ Glove Sizing System

- Always purchase a glove that is custom fit to your hand size.
- Individuals use the HAND SIZING TOOL to measure their hand size and to select the proper glove size for best fit and tactility.
- Developed for the U.S. Army in 2010, the HAND SIZING TOOL is patented and available for sale by the exclusive licensee MASLEY Enterprises Inc.

Benefits of HAND SIZING TOOL

For Retailers

- Easy for customer to measure their hand size and select the proper glove size.
- Minimizes the need to try on multiple glove sizes from different brands.

For Contract-Buyers

- Assures the purchase of proper fitting gloves from different vendors.
- Less waste due to over purchasing that is common with traditional glove sizing.

For Manufacturers

- Useful tool for designing gloves with proper fit.
- To be used in conjunction with SIZING HAND FORMS for design and quality assurance.
